Undergraduate & Graduate Courses - Fee Waiver Program

Undergraduate Courses

Students are responsible for obtaining prerequisite approval before submitting their Fee Waiver form to the Human Resources Office.

Graduate Courses

If the employee is enrolling in graduate courses designated as work-related or career development, the employee is subject to the same general requirements defined in the section on Career Development Courses and Work-Related Courses. However, the employee must complete the front of both "Part A" and "Part B" of the CSU admissions application. The employee is also advised to contact the academic department of interest for additional requirements and/or restrictions.
